## BASKET BALL

N. H. S. 33; Mexico H. S. 18  
By turning on full steam in the last half Norway High School jumped over the half Norway High School at Norway Opera House Friday evening and winning decisively a 33-18 battle.

The first period was an even toss ending 6-6. Norway gained slightly after the breathing spell when Mexico jumped one point ahead but the first half closed with Norway leading 14-11. Norway advanced another peg and widened the breach during the third period after stiff opposition, the result being 21-15.

(Some) struggle was the fourth chapter. Mexico was swept into the current and whirled along at a dizzy speed, but unable to do effective work. They copped only 3 points during the busy ten minutes. On the other hand Norway played aggressively, forcing her opponents to defensive tactics. Mexico failed to check the assault and floor baskets merrily ticked off the half minutes as King, Palmer and Andrews poked the sphere over the top.

Referee Davis was generous with the whistle and checked all rough stuff. Both outfits were kindly remembered with personal fouls with Norway drawing the lions share. Right here Mexico missed a golden opportunity on the free toss line, McPherson and Hall gathered only two points each from a bumper crop. King made three safe ones from a limited number of chances. The score:

An exciting but rough game between the Norway and Maine School of Commerce Girls ended in a 2-2 tie.

Very little basket ball skill was displayed by either team but several innovations were introduced, including hurdling, leap frog, sliding and skating.

The Norway girls should have won easily as the ball was in their possession fully three quarters of the time but the jinx that has followed the forwards for several weeks was still camping on their trail and only once, at the hands of Miss Richardson did the ball pass through the ring.

The Auburn girls were unable to score from the floor, and their marks were won on the foul line.

According to the present girls rules a tie shall not be played off. The Norway girls were ready to sit aside the rule and continue to a finish but the Commerce team declined the pleasure.

After an illness of several months with Brights Disease Joseph K. Edwards passed away Feb. 27 at his home in Conway, N. H. His age was 53 years, 10 months, 10 days. The deceased was a native of Otisfield and for five years was in the meat business with Harry O. Stimson at Norway. He resided in Conway the past fifteen years as hotel keeper and had a wide acquaintance.

Mr. Edwards was born in Otisfield April 17, 1869, the son of Simon and Clara Kinsman Edwards. At the age of thirteen he started to earn his own living and worked on farms in his native town while attending school. For a long time he was superintendent of the Frank Davis Stock Farm at Pownal, a place well known in its day. Later he worked in the Jilison Store at Otisfield but after a time secured employment as an attendant in a private hospital in Taunton, Mass. Leaving of a good opportunity in the meat business he returned to Conway, N. H. and was employed at the Otisfield Hotel. He traveled over Oxford County in a peddlers cart for many years. Every person over the route loved Joe, as he was called and he will be long remembered as a cheerful and accommodating companion.

Being the main object in life, he changed to partnership with his brother-in-law Harry O. Stimson at Norway. This firm carried on meat business about five years, with headquarters at the Stimson place below Norway Village. Fifteen years ago he acquired the hotel property at Conway, N. H. and was considered one of the most popular landlords in that section to the time of his retirement last June. With an exception of two years in California Mr. Edwards catered to the traveler and summer guests with the latch string out and real hospitality his main object in life.

Last summer Mr. Edwards sold the hotel property and purchased a residence on Main street. Extensive alterations had been made the past summer to prepare a home where he and his wife could enjoy in comfort their remaining years.

Mr. Edwards was a public spirited citizen, enjoyed associating with his fellowmen. He was a member of F. and A. M. of Bolsters Mills, Knights of Pythias at Oxford, the I. O. O. F. and Red Men at Conway. These bodies were represented at the funeral with large delegations, many brothers traveling several miles over rough roads to pay their last respects to a valued friend.

He leaves besides his wife, who was Susie Brown of Boston, Mass., two brothers and two sisters, Roscoe S. Edwards, Norway; G. N. Edwards, Bolsters Mills; John Shores, Conway and Mrs. Harry O. Stimson, Norway.

Public funeral services were held at the Congregational church at Conway, Friday at 2 o'clock, Rev. H. Reeves Davis officiated. The auditorium could hardly seat the large number of friends who gathered. The Impassioned and Odd Fellows performed their impressive burial services. Interment will be at Conway.

DON'T  
LEAVE NORWAY

No Need to Seek Afar. The Evidence  
Is At Your Door

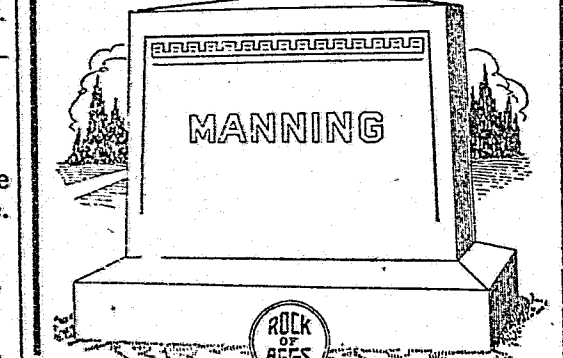

No need to leave Norway to hunt up  
proof, because you have it here at home.  
The straightforward statement of a Nor-  
way resident like that given below, bears  
an interest for every man, woman or child  
here in Norway.

Albert F. Prescott, shoemaker, Crockett's Bridge, Norway, says: "My kid-  
neys gave out a year ago and I had back-  
ache so badly it put me past going for  
several days. I couldn't bend, I was so  
stiff and lame. I was working in the  
ship yards at the time and I blame so  
much heavy lifting for my trouble. I  
had to get up several times during the  
night to pass the kidney secretions and  
I felt drowsy all the time. Finally I  
went to Stone's Drug Store and got three  
boxes of Doan's Kidney Pills and began  
using them. Doan's reached my case at  
once and after using three boxes, the  
trouble left me entirely. I have felt fine  
since."

Price 60c, at all dealers. Don't simply  
ask for a kidney remedy—get Doan's  
Kidney Pills—the same that Mr. Prescott  
had. Foster-Milburn Co., Mfrs., Buffalo,

WOMEN OF  
MIDDLE AGE

Relieved of Nervousness and Other  
Distressing Ailments by Lydia E.  
Pinkham's Vegetable Compound

Brooklyn, N. Y.—"I first took Lydia  
E. Pinkham's Vegetable Compound four  
years ago, and am  
taking it now for the  
Change of Life and  
other troubles and I  
receive great benefit  
from it. I am willing  
to let you use my  
letter as a testimo-  
nial because it is the  
truth. I found your  
pamphlet in my letter-  
box and read it care-  
fully, and that is how  
I came to take the  
Vegetable Compound myself. It has  
given me quiet nerves so that I sleep all  
night, and a better appetite. I have rec-  
ommended it already to all my friends  
and relatives."—Mrs. ENGLEMAN, 2082  
Palmetto St., Ridgewood, Brooklyn, N.Y.

For the woman suffering from nervous  
troubles causing sleeplessness, head-  
ache, hysteria, "the blues," Lydia E.  
Pinkham's Vegetable Compound will be  
found a splendid medicine. For the  
woman of middle age who is passing  
through the trials of that period, it can  
be depended upon to relieve the troubles  
common at that time.

Remember, the Vegetable Compound  
has a record of nearly fifty years of  
service and thousands of women praise  
its merit, as does Mrs. Englemann.  
You should give it a fair trial now.

Andrew H. Evans  
The funeral services for Andrew H.  
Evans was held at his late home Wed-  
nesday Feb. 28 at 2:30 o'clock Rev.  
Edward W. Wild, pastor of the First  
Congregational Church officiating. The  
services consisted of readings from the  
Scriptures, a brief address and prayers.

Two solos were sung by Asa Osgood Pike.  
There were beautiful floral offerings.  
The bearers were old friends of Mr.  
Evans, and the remains were placed in  
the receiving tomb and later will be buried  
in the family lot in Pine Grove cemetery.

Mr. Evans, an aged and well known  
citizen of Fryeburg, passed away at his  
home on North Main street, Fryeburg  
village, on Monday morning after a few  
days' illness of bronchial pneumonia. He  
would have been 88 yrs. old at his next  
birthday which comes in April. He was  
a native of the town and resided for many  
years on the Evans farm at the Mount  
Tom neighborhood. Later he and his  
family moved to Fryeburg village and  
their home on Portland street was de-  
stroyed in the village fire. They were  
moved to their present home on Main  
street.

AEROBELL  
Electric Vacuum Clothes Washers

The Aerobell is backed by a broad gauge guarantee which in-  
sures your satisfaction.

The Aerobell embodies the improvements for which you have  
been waiting: Aluminum wringer frame, new type safety release,  
big round copper tub with full opening, and only three legs for  
steadiness on uneven floors.

Air Pressure and Suction in the vacuum cups actually draw  
the soap suds through the fabrics. You can hardly believe how  
quickly and thoroughly the air-cushioned vacuum cups clean, and  
they can't harm the most delicate articles. There is no belt, and  
the mechanism is under the tub, out of the way.

The Aerobell is simple in construction and built to stand  
years of hard work. It is designed to reduce effort to a minimum.  
You can depend upon it day after day, year after year.

Principle of Operation—When the washer is in operation  
the vacuum cups inside the tub move up and down upon the  
clothes. At the end of each upward stroke the cups rotate par-  
tially around the tub and come down in a different position. Thus,  
all the clothes in the tub are acted upon equally. On the down-  
ward stroke as the cups reach the water they entrap the air, and  
as the stroke continues these air cushions press against the  
clothes, forcing the soapy water through the pores of the cloth.

On the upward stroke a vacuum is created which draws the soap  
solution again through the meshes. Thus, as the vacuum cups  
reciprocate they continue to force the hot suds back and forth  
through the fabric. During this operation the clothes change  
their position in the tub slowly so that all of them in turn come  
under action of the cups. The action above described will cleanse  
the heaviest blankets and the daintiest fabrics with equal effec-  
tiveness and without the slightest injury.

The capacity of the Aerobell is 8 sheets or their equivalent.

## Know Its Hidden Values They Keep Essex Young

Time and hard service show the real difference in the way cars are built.

Essex values are not all on the outside. They extend to minute details. They include finest bearings, where commonly "bushings" are used. They include devices to prevent wear and to inexpensively take up

wear. For weight carried, the Essex frame is the strongest built, save one. Experts, foreign and American, call its motor the finest of its size.

With all these noted chassis qualities the Coach gives closed car utility, comfort and distinction, at little more than open car cost.

### "65,780 Miles Without Repairs"

"In the 65,780 miles that I have driven my Essex, the cost of maintenance has been practically nil. Outside of lubrication I have given it no care. The gasoline consumption has averaged around twenty miles to the gallon."

## NORWAY CO. AT FORT MCCLARY

The Norway Company of the old militia under Capt. Geo. L. Beal went to the war in May 1861 as Co. G. of the First Maine Regiment. On the expiration of its term of service it re-entered the army again as Co. G., 10th Maine to date from original muster in the First Me. and for a two years service. Captain Beal was elected and commissioned Colonel of the regiment. In the autumn of 1863 this company, after being by Norway men, again went into the service as Co. G. of the 29th Maine, with George L. Beal as the colonel of the new regiment. This left Norway without a militia company and one was formed here in July 1863 with Sylvanus Cobb Jr. as Captain, Claudius M. Faver, First Lieut., and Henry Tucker, Second Lieut.

On the 25th of April, 1864, the Adjutant General by Special Order No. 56, directed Captain Cobb to take his company to Fort McClary, Kittery for garrison duty to relieve U. S. Troops then stationed there. At the same time the commanding officer of the Lewiston Militia Company, Captain Reed, was ordered to take his men there for the same purpose. Two days later the men had arrived at the fort and later were mustered into the U. S. Service for 60 days.

May 10th in accordance with instructions from Maj. Gen. John A. Dix, commanding the Department of the East, the Adjutant General ordered the two companies consolidated, leaving the Senior Captain Cobb in command of it and the post. This displaced Captain Reed, who had a fine military turn about him and was an excellent officer. Chester C. Thing of Lewiston became First Lieut. of the consolidated company and Claudius M. Faver, Sec. Lieut. and Henry Tucker, Orderly Sergt. The Lewiston men numbered 45, the men from Norway number were six from each of the following towns: Waterford, Harrison, Greenwood and Sumner. The Norway men proper besides the three officers mentioned were:

Sergt.—Madison Faver,  
Corps.—Arthur E. Denison, George A. Cole,  
and Wallace Foster.  
Privates—Benj. G. Barrows, James G. Bradley, Charles B. Cummings, James C. Drew, W. D. Earl, Charles J. Edgecomb, W. Edwin Frost, Edwin Fisher, Alwood Gammon, Abner Greenleaf, Joseph H. Hamlin, Joseph F. Howe, Frank H. Hamlin, Levi B. Holden, George J. Leonard, W. F. Merrill, Wm. Merrill, Hiram Merrill, Charles F. Millett, Charles M. Millett, Benj. H. Noble, Edwin J. Nowell, Charles J. Penley, Isiah J. Penley, W. Scott Partridge, Frank H. Reed, Oliver Shackey, Edward F. Stevens, George M. Smith, John Tucker and Rodolphus Young.

A large number of the boys took the places of members of the company, as substitutes. Several of the soldiers were students at the Academy and among them were Clarence M. Smith, Arthur E. Denison, Edward F. Stevens, George F. Howe, W. Edwin Frost, Charles H. Porter of Paris and Hiram Tuell of Sumner. The principal Mr. Leonard went with them. The students were all favorites of Captain Cobb, Arthur E. Denison was a member of the Norway Company particularly so, but their teacher not accustomed to discipline himself managed early to get the dislike of his commanding officer. There are but three of the Norway men who went to Fort McClary now living; Stevens, Millett and Clarence M. Smith at his home on Main St., for facts and incidents relating to the Norway men's service he said: "I remember the order from the Adjutant General for Capt. Cobb to take his company to Fort McClary, Kittery in the latter part of April 1864. A number of us students at the Academy wanted to go and although none of us except Arthur E. Denison belonged to the company we found no difficulty in taking the places of some who did not care to go. A meeting was called at Denison's hall over the L. A. Denison store, corner of Main St. and Denison street, where Capt. Cobb made us an eloquent speech and impressive. He said among other things that the great armies East and West were about to grapple in a death struggle and that no one of us was wise enough to see the outcome. He said his faith was strong that the Union would triumph; that in times like these no one should consult his own interest and all should be willing to sacrifice something for the good of his country. 'I have' he said, 'a story party in the compositor's hands, partly in manuscript and a part of it is yet unborn.' He did not begin writing on it again 'till Sept. 12 of that year as his diary shows."

"It has been said by a careless writer that he wrote some stories or tales—perhaps 'The Gummaker of Moscow,' while at Fort McClary. The 'Gummaker of Moscow,' which made him famous, was written in the front room of the 2nd story of the house now occupied by Frank W. Murdock on the corner of Main and Whitman Street in March 1866. The place was then owned by Ben Greenleaf, Esq. N. Sweet's has or had the story on which the story was written. Some of his best stories were written while in Norway and other places and before he took his company to Fort McClary. Among these may be mentioned 'The Storm Secret,' 'Orion,' the Gold-beater,' 'Karnal,' the Scott's and 'Wolf-Song' or the 'Wreckers Beacon.'"

"We went away two days after the order to go to Fort McClary was received by Capt. Cobb. He did not go with us but he went to Augusta to get the order for the consolidation of the Norway and Lewiston companies for neither alone had the requisite number (80) to be mustered into the U. S. Service. As I remember this was not done for about two weeks and in the meantime the discipline was quite lax. The muster, however, dated from April 27. Most of us were in the clothes we wore at home and the first night at the fort was not a very comfortable one. I remember hearing Albert (Wm. A.) Merrill who was trying to get into a comfortable place in the barracks to sleep saying, 'Well, we won't have to stay here but 59 days more.'"

"The most of the men really enjoyed the time we were in the service though there was some sickness. We could get passes easily to go into Portsmouth and as I was always handy with the oars was often put in charge of the boat crew. Charles B. Cummings often accompanied me in this work when the captain wanted to go up to the city. Cobb was quite a fisherman and with George A. Cole and myself at the oars and a man to steer he several times went down the bay to fish and always brought back enough to feed the boat crew. I thought he had hooked a red or pollock, he found after pulling the thing to the surface that it was only a skate or a sculpin, and then would come in his deep sonorous voice, 'Clarence caught that—thing, off my hook.'"

"A fellow, by the name of John Sarford kept a beer saloon in the city, at which place some of the men would frequent too often and come back to the fort in higher spirits than Capt. Cobb relished, so one day he ordered Ed Frost to go to Sarford and tell him that he must not sell any more beer to his men. Ed was something of a diplomat. Before he delivered the message to the saloon keeper he ordered the soft drinks for himself and companions which so pleased Sarford that he promised to sell no more to the soldiers. Of course this did not prevent their getting beer in other places in the city and Sarford probably sold to some, though more cautiously and in smaller quantities."

"Dr. Rodolphus Young who kept a small drug and confectionery store in Hathaway block when at home was hospital steward while at Fort McClary. The surgeon who was stationed there being away one day, Dr. Young had a call to attend one of the doctor's patients outside the fort. It was a female in a delicate condition. He gave a purgative and rising to go was asked if he wasn't going to remain a while. He said, 'No, that there was no need of it for she would get along all right, but that there were several men at the fort who were troubled in the same way and he must get back to attend to them.'"

"The Bangor Company in command of Capt. L. J. Morse, in which was Vice Pres. Hamlin Hamlin, who had volunteered as a private without pay to serve 60 days with it came to relieve us early in July and on the 7th day of that month was mustered into the U. S. service. The Vice President wore a blue blouse and not a 'swallow tail' coat as has been stated. This fact is deeply impressed on my memory. Mr. Hamlin immediately went on guard at his own request, relieving Andrew Peter Greenleaf, who felt very much elated over the incident. Greenleaf enlisted in the 29th Me. in September following and was killed at Cedar Creek, Oct. 19th, where Sheridan riding from Winchester 20 miles away turned a disastrous defeat into one of the most brilliant of the Union victories of the war. On the 9th of July '64 we were mustered out at Portland and came home."—C. F. Whitman.

### THE RIGHT IDEA

The Maine Automobile Association is attempting to get the various highway factions together so that when legislation along this line is presented to the Legislature it will have the united support of the several interests concerned. There is nothing so detrimental to good constructive legislation as to have a lot of different factions pouring in all kinds of bills attempting to solve practically the same problem. They confuse the legislator, who is necessarily working under pressure, and as a result something incomplete and unsatisfactory generally comes through the legislative mill. When, however, the several sides of a question are carefully discussed in advance by the parties concerned and some single measure is presented to a legislature with the backing of all the factions it usually goes through without any difficulty and some really constructive laws are enacted.

Of course, in a case like this everyone has to concede something, and many pet ideas have to be set aside. However, the result is that the great object sought usually comes through unscathed and in a very desirable form.

The association has always been the leader in the highway development of the State, and in fact it was the organization which first started the agitation and secured the establishment of our present State Highway Department. Since then it has taken charge of the financial problem and has backed all of the successful campaigns for bond issues for highway and bridge construction.

### SWEDEN

Herman Haskell is sick with a grip cold.

Word was received that Miss Ruth Verrill is much improved.

Mrs. Norrie Brackett of Bridgton is sick. Miss Ruth has returned to school.

A Manufacturer once said that anything could be sold once by advertising, but if it was to be sold again to the same buyer, the article would have to live up to its advertisement.

### BUILD PERMANENT BRIDGES

A wave of economy to save in the cost of bridge construction in the State is being used to influence the Governor and Council to investigate the program recommended by the Highway Commission.

Many advise wood construction, believing it a saving over more permanent material and call attention to the Martin Point bridge in Cumberland County, the initial cost said to be \$60,000. Reports show this structure has cost the State \$169,238.55 to the present year. Main-tenance or upkeep has proven a heavy load with no relief in sight.

A wooden bridge at its best is always unsightly and as we are to embark on an expenditure for publicity to attract tourists to our State, it would be well to strive to make most of our public structures as modern and attractive as possible.

Even steel bridges with wood floors are not free from expense and fire risk. A cigar or cigarette stub and even lighted matches are a menace to any bridge with wood construction. A concrete floor is absolute insurance against such losses and is practically permanent for all time.

There is hardly a city or town in Maine that would not be entirely free from debt if our forefathers had strived for permanence, which means low ultimate cost, and given less attention to low initial cost. An examination of the record of any city or town in the State for the past century will show that year after year a small appropriation is made to repair some bridge or highway until the total amount spent on that particular bridge or highway is greatly in excess of the cost, of permanent structure. The town instead of having a permanent structure for the money spent, has in permanent structure that in many cases is in worse condition than it was twenty or thirty years ago.

Bridge building is an engineering problem and in every case the advice of a competent bridge engineer should be given very careful and mature consideration.

### Four Generations Helped

to better health by this time-tested laxative

## Dr. True's Elixir

The True Family Laxative

For over 72 years this pleasant and effective laxative has given proper relief to thousands of men, women and children who have suffered from constipation, deranged stomach, and other troublesome complaints brought on by disordered, sluggish bowels.

For good health—to be free from headaches, bad tasting mouth, all-gone feeling in stomach, dizzy spells, constipation, the bowels must be kept tuned up. Nature can be assisted by using Dr. True's Elixir, the True Family Laxative and Worm Expeller.

Safeguard your own health, look after the children who may show signs of worms and should be rid of them the easiest, safest way—by taking Dr. True's Elixir.

Your dealer knows of its world-wide reputation, gained through four generations of public health service. Made from imported herbs of strictly pure quality.

Signs of Worms: Constipation, deranged stomach, swollen upper lip, offensive breath, hard and full stomach with pains, pale face, eyes heavy and dull, short, dry cough, grinding of the teeth, tongue coated and covered with little red points, starting during sleep with troublesome dreams, slow fever.

Mrs. Henry Johnson, 830 Hayward Ave., Baltimore, says: "I have bought Dr. True's Elixir for over ten years and know it is good."

Mrs. H. N. Roberts, 501 Asylum St., Flint, Mich., says: "My little girl is relieved of her worms." And in a later letter wrote: "Baby is fine and it was your medicine, Dr. True's Elixir, that helped her."

Don't experiment—buy Dr. True's Elixir, the True Family Laxative and Worm Expeller. For the whole family, either child or grandparent. 40c, 60c, \$1.20.

## A FAVORABLE TENDENCY

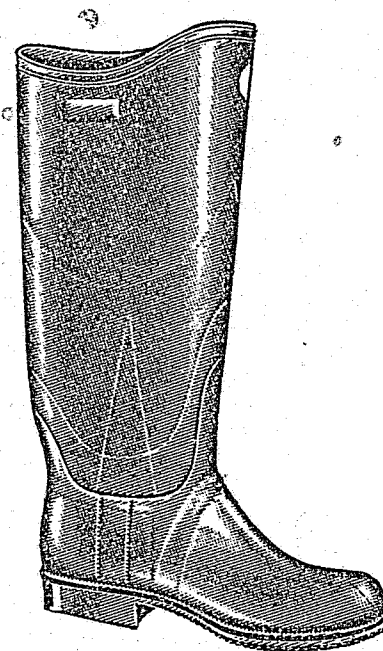

One of the most favorable developments of the last few years, as far as the farmer is concerned, is the tendency toward greater co-operation with each other.

One government authority says that the growth of co-operation among farmers is one of the most important developments of our economic progress. He further states that this movement will not only benefit the agricultural interests, but the nation as a whole.

The Norway National Bank has always emphasized the importance of co-operation, between the banks and the agricultural interests and between the farmers and dairymen themselves. We are always ready to do our part.
